# Saint Martin's University Washington Veterans to Technology program (WaV2T) is dedicated to your success

Our (WaV2T) program is designed to provide face-to-face computer science, software development, and information technology education to active-duty service members transitioning out of the military, eligible veterans, and military spouses.

## Highlights

- 97% completion rate and a 90% placement rate in similar previous program (MSSA) at Saint Martin's. Average starting salary over the last three years, \$89k.
- Program is an intensive 16 week combination of academic courses and professional development.
- Program offers an optional second semester for individuals interested in additional hands-on experience through an internship program and advanced course instruction.
- Extensive placement assistance built into program.
- Saint Martin's has received multiple professional awards for its veteran programs, including CCME 2021 award, Military Friendly School and Purple Heart University.

## Program schedule

Classes and professional development are 16 weeks and run Monday to Friday, 0800-1700 PT. Some sessions may run later depending on class projects and assignments. Classes are held either in Stone Center on Saint Martin's-JBLM or on the Saint Martin's University Lacey campus.

### Pathways and program options

- Server and Network Administration
- OR
- Cloud Application Development

### Option

Continue the program with a second semester incorporating a paid internship and advanced course instruction. For active duty, the first semester will consist of the CSP/Skillbridge program. The second semester will be attended as a veteran.
